

architecture foundation of oregon

The Architecture Foundation of Oregon supports Oregon's quality of life and creates awareness of our designed environment through education, engagement and inspiration.

Educate

Cultivating creativity in our communities

AFO believes that all Oregonians benefit from thoughtful design in their homes, in their community and in the environment around them. Through dynamic programming such as our Architects in Schools and Portland Hip Hop Architecture Camp, AFO works with community partners to share design's role in shaping our future.

Engage

Convening dynamic conversations across Oregon

AFO partners with organizations across the state to connect communities with the power of design. By convening conversations and encouraging involvement, we empower people to embrace design as a tool to impact the future of Oregon for generations to come.

Inspire

Sparking ideas that broaden our world

AFO embraces the special sense of place that makes Oregon a unique location. From honoring the people and organizations that define this place we call home to fostering the next generation of leaders and thinkers, we work to ensure that our built and natural environments inspire us to dream more, create more and do more.

Programs

7

- Architects in Schools
